Dr. Townsend—I verily believe that your Sarsaparilla been the means, through Providence, of saving my life. I have for several years had a bad cough. It becan worse and worse. At last I raised large quanties of blood, had night sweats, and was greatly dehilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful

You are at liberty to use this for the benefit of the afflicted. Yours, respectfully, JAS, CUMMINGS.

Fits! Fits! Pits! Dr. Townsend, not having tested his Sarsaparilla in case of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Weschester county: Fordham, August 13, 1847. Weschester county: Fordham, August 13, 1847.

Dr. Townsend: Dear Sir - I have a little girl seven years of age, who has been several years afflicted with Fits: we tried almost every thing for her, but without success; at last, although we could find no recommendaion in our circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsapacilla, and are very glad we did, for it not nly restored her strength, but she has had no return of the Fits, to our great pleasure and surprise. She is fast becoming rugged and hearty, for which we fee

grateful. Yours, respectfully. JOHN BUTLER, jr. Female Medicine. Dr. Townsend's Sarparilla is a sovereign and speedy cure for Incipent Consump ion, barrenness, prolapsus Uteri, costiveness, pile leucorrhea, and for the general prostration the female system—no matter whother the rest of inherent cause or causes, produced by irregulari ty, illness or accident. Nothing can be more surprising than its invigerating effects on the human frame Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of barrenness. It will not be expected of us, in cases of so delcate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hund eds of cases
